New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing)

In order to exchange knowledge, humans need to share a common lexicon of words as well as

to access the world models underlying that lexicon. What is a natural process for a human turns out to be an extremely hard task for a machine: computers can't represent knowledge as effectively as humans do, which hampers, for example, meaning disambiguation and communication. Applied ontologies and NLP have been developed to face these challenges. Integrating ontologies with (possibly multilingual) lexical resources is an essential requirement to make human language understandable by machines, and also to enable interoperability and computability across information systems and, ultimately, in the Web.

This book explores recent advances in the integration of ontologies and lexical resources, including questions such as building the required infrastructure (e.g., the Semantic Web) and different formalisms, methods and platforms for eliciting, analyzing and encoding knowledge contents (e.g., multimedia, emotions, events, etc.).

The contributors look towards next-generation technologies, shifting the focus from the state of the art to the future of Ontologies and Lexical Resources. This work will be of interest to research scientists, graduate students, and professionals in the fields of knowledge engineering, computational linguistics, and semantic technologies.

From reader reviews:

Carolyn Fletcher:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to understand everything in the world. Each book has different aim or maybe goal; it means that reserve has different type. Some people really feel enjoy to spend their time for you to read a book. They may be reading whatever they take because their hobby will be reading a book. Think about the person who don't like studying a book? Sometime, particular person feel need book whenever they found difficult problem as well as exercise. Well, probably you will need this New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing).

Bonnie Vassallo:

Have you spare time for the day? What do you do when you have more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their own spare time to take a stroll, shopping, or went to typically the Mall. How about open as well as read a book called New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing)? Maybe it is being best activity for you. You already know beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have some other opinion?

Buddy Beckstead:

This New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) is great book for you because the content that is full of information for you who always deal with world and get to make decision every minute. This specific book reveal it data accurately using great manage word or we can say no rambling sentences inside. So if you are read this hurriedly you can have whole info in it. Doesn't mean it only provides you with straight forward sentences but tough core information with attractive delivering sentences. Having New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) in your hand like having the world in your arm, info in it is not ridiculous a single. We can say that no reserve that offer you world inside ten or fifteen minute right but this publication already do that. So , it is good reading book. Hi Mr. and Mrs. active do you still doubt that will?

Margaret James:

You can find this New Trends of Research in Ontologies and Lexical Resources: Ideas, Projects, Systems (Theory and Applications of Natural Language Processing) by look at the bookstore or Mall. Just simply viewing or reviewing it can to be your solve difficulty if you get difficulties on your knowledge. Kinds of this guide are various. Not only by simply written or printed but also can you enjoy this book by simply e-book. In the modern era including now, you just looking because of your mobile phone and searching what

your problem. Right now, choose your personal ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose proper ways for you.
