Craig Rosebraugh

Arguments Against the Use of Animals in Biomedical and Scientific Research By Craig Rosebraugh What benefits applicable to human health have come out of the seven regional primate research centers since their establishment in the 1960s? What are the medical, moral, scientific, and ethical implications of past, current, and future experimentation involving non-human primates? A substantial argument, which will give you all the ammunition you need, to persuade those still on the fence about animal experimentation.
