## **For Our Babies: Ending the Invisible Neglect of America's Infants** J. Ronald Lally

For the last forty years, J. Ronald Lally has worked with state and federal agencies to improve services for infants and toddlers in the United States and abroad. In this new book, Lally paints a stark picture of how our babies have been forced to shoulder the fallout of massive societal changes over the past 60 years, changes that have resulted in less access to their parents, longer time spent in child care, and substandard child care services.

***For Our Babies* features the resonant voices of American parents speaking of their hopes, worries, and frustrations living in a country with too few parental and child supports. It describes American parents' general lack of awareness about how little they receive from their state and federal governments compared to parents living in other countries. This important book includes crucial testimony from developmental psychologists, child care providers, health and mental health professionals, economists, specialists in brain development, and early learning educators about how policy and practices must change in the U.S. if parents are to raise children who will become healthy, productive members of society.**
