The work herewith presented has been prepared to meet a popular demand. During a recent visit to Gettysburg, the writer became impressed with the necessity for a book from which visitors could gain reliable information regarding the battle, and directions for visiting the held, independently of the fanciful tales of local guides, who, with the best intentions, are liable to be imposed upon by vainglorious heroes, whose vivid descriptions they have no means to disprove. It will also make a valuable souvenir for those who would explain to others the intricacies of this important battle. It is not intended as a history, but may rather be considered as an introduction to the history now in course of preparation. It will also serve as a useful key to the Isometrical Drawing of the battle-field, a copy of which it contains.
