This is the Gold Standard against which all other "how to weave" books are judged. Mary Black covers everything from the basics of reading a draft to warping the loom to finishing the piece. There is also a great deal of very useful information to help you decide what kind of fiber you want to use for your pieces, how to set up your own projects, even how to figure out just what you have on that unlabeled cone and what you can do with it. Unlike other weaving books I've had, Key to Weaving manages to be hugely useful to both beginning and experienced weavers. This book has been used in almost all weaving classes in America. It is still relevant.
