In Level 5 the pace and conversation moves quite rapidly, accelerating exposure to new vocabulary and structures, approaching native speed and comprehension. Totalling one hour 15 minutes, the lessons will teach you to sound out written words with correct pronunciation and accent. A Reading Booklet to be used with the audio lessons is included in PDF format.

The Pimsleur Method

We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his "secrets":

The Principal of Anticipation

In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind.

Core Vocabulary

Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson.

Graduated Interval Recall

Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory.

Organic Learning

You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture.

Constant Feedback Loop + Build-in Testing

Pimsleur's unique system of cues and responses provides a constant feedback loop. You can test yourself as you go, and make incremental corrections in creating and refining cohesive, clear responses.

Gives You a Solid Foundation

Each lesson and Level builds on the ones before it and in turn sets the framework for the lessons and Levels that follow. Learn what you need to prosper and to build a foundation to future learning.

The Mandarin Language

Over one billion people speak Chinese. The two most common dialects are Mandarin and Cantonese. They are not mutually intelligible. Mandarin is the official language in Mainland China, Taiwan, and Singapore. The Mandarin dialect is used in most Chinese schools, and in most TV programs, movies, and radio stations throughout the country, and even in Guangzhou (formerly Canton), where people speak Cantonese in their daily lives. Mandarin is one of the six official languages of the United Nations.
