The people of planet Earth have suffered the tides of war for six long years, but it's not their war. Earth is the battleground for the thousand-year conflict between the invading Hahnshin and the Godan warriors of the Galactic Confederation.

Mira Donazetto's only concern is for her family's survival, so when she's offered work as a translator for the Godan, she jumps at the chance and right into the arms of the new First Commander, Roark. Her heart says she should trust this alien warrior, but how can she when he has the power to take away everything she holds dear.

Roark's new command post is a disaster with a long list of problems that he must address, including dissension among his officers. The last thing he needs is to have his heart touched by a woman who may be a traitor.

It's a whole new world and a whole new love story in a whole new series called Women of Earth.
