North American New Right is the journal of a new intellectual movement, the North American New Right. This movement seeks to understand the causes of the ongoing demographic, political, and cultural decline of European peoples in North America and around the globe — and to lay the metapolitical foundations for halting and reversing these trends.

The North American New Right seeks to apply the ideas of the European New Right and allied intellectual and political movements in the North American context. Thus North American New Right publishes translations by leading European thinkers as well as interviews, articles, and reviews about their works.

Jonathan Bowden on Counter-Currents Publishing and North American New Right:

“... I regard initiatives like Counter-Currents as very important. Counter-Currents is, to my estimation, a sort of right-wing university. A sort of free access right wing university on the Internet, a radical right-wing university. The whole point now is that higher education has locked off the right end of the spectrum. You can learn about conservative ideas, you can learn about liberal ideas, you can learn about socialist ideas, you can learn about Marxist ideas in the university context; you can learn about all forms of pan-religiosity and so forth. But you can't learn about radical right wing ideas in the university context unless it's adversarial, unless you're deconstructive, unless you're against those ideas in a prior way.

“... Counter-Currents is one of the means by which people can educate themselves to defend themselves and their own honor and future prospects. Counter-Currents is what I personally believe the best, most educative right-wing site that I've come across, and it's used by an enormous plethora of people who want information about their own past and their own future. There's a great wealth of material on it, and it provides this tertiary education of the mind in a radical right sensibility. I believe that this is crucial if we're to have a future.

“... Only when people gain the courage and the conviction to read what is on Counter-Currents, to internalize it, and to defend their own possibilities—of development, biologically and culturally—will we see a change here in America and elsewhere.” — Jonathan Bowden, "Western Civilization Bites Back"
