Hypnosis, though long ignored, is now coming of age and is being used more and more by helping professionals. Hypnosis is probably the finest tool available for the probing of the human mind. Its increased use non-directively will undoubtedly bring us ever closer to the answers to questions as to who, what, and why we are and to how our mind really function. This book illustrates the kinds of adventures that are possible while exploring the human mind, and further illustrates how ghosts from the past may be discovered and laid to rest giving great benefit physically, mentally and emotionally. It further challenges others to repeat the same kind of probing to substantiate or refute the claims made here.
