Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action) Charles Bell

Beginning Sensor Networks with Arduino and Raspberry Pi teaches you how to build sensor networks with Arduino, Raspberry Pi, and XBee radio modules, and even shows you how to turn your Raspberry Pi into a MySQL database server to store your sensor data!

First you'll learn about the different types of sensors and sensor networks, including how to build a simple XBee network. Then you'll walk through building an Arduino-based temperature sensor and data collector, followed by building a Raspberry Pi-based sensor node.

Next you'll learn different ways to store sensor data, including writing to an SD card, sending data to the cloud, and setting up a Raspberry Pi MySQL server to host your data. You even learn how to connect to and interact with a MySQL database server directly from an Arduino! Finally you'll learn how to put it all together by connecting your Arduino sensor node to your new Raspberry Pi database server.

If you want to see how well Arduino and Raspberry Pi can get along, especially to create a sensor network, then *Beginning Sensor Networks with Arduino and Raspberry Pi* is just the book you need.

What you'll learn

- How to build sensor nodes with both Arduino and Raspberry Pi!
- What is XBee?
- What methods you have for storing sensor data
- How you can host your data on the Raspberry Pi
- How to get started with the MySQL database connector for Arduino
- How to build database enabled sensor networks

Who this book is for

Electronics enthusiasts, Arduino and Raspberry Pi fans, and anyone who wants hands-on experience seeing how these two amazing platforms, Arduino and Raspberry Pi, can work together with MySQL.

From reader reviews:

Erica Dennis:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each guide has different aim as well as goal; it means that book has different type. Some people feel enjoy to spend their time for you to read a book. They are reading whatever they consider because their hobby is actually reading a book. What about the person who don't like reading a book? Sometime, person feel need book when they found difficult problem or even exercise. Well, probably you will require this Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action).

Chad Wright:

Book is usually written, printed, or created for everything. You can recognize everything you want by a reserve. Book has a different type. As we know that book is important matter to bring us around the world. Next to that you can your reading ability was fluently. A e-book Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action) will make you to end up being smarter. You can feel more confidence if you can know about every little thing. But some of you think which open or reading some sort of book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you trying to find best book or acceptable book with you?

Robin Norfleet:

Here thing why this kind of Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action) are different and reputable to be yours. First of all studying a book is good nevertheless it depends in the content of computer which is the content is as delightful as food or not. Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action) giving you information deeper as different ways, you can find any e-book out there but there is no book that similar with Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action). It gives you thrill examining journey, its open up your current eyes about the thing that will happened in the world which is probably can be happened around you. You can actually bring everywhere like in park your car, café, or even in your approach home by train. Should you be having difficulties in bringing the paper book maybe the form of Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action) in e-book can be your choice.

Sam Nielsen:

Reading a guide can be one of a lot of action that everyone in the world really likes. Do you like reading book consequently. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new details. When you read a book you will get new information since book is one of many ways to share the information or perhaps their idea. Second, examining a book will make you more imaginative. When you reading through a book especially fictional book the author will bring that you imagine the story how the

figures do it anything. Third, you are able to share your knowledge to other folks. When you read this *Beginning Sensor Networks with Arduino and Raspberry Pi (Technology in Action)*, you could tell your family, friends and soon about your guide. Your knowledge can inspire average, make them reading a book.
