*Phoenix from the Ashes* is a comprehensive look at the state of the Catholic Church since the Second Vatican Council--one of a series of recurrent periods of moral and intellectual crisis to which it has succumbed in its history. A chapter on the Council describes in detail how Pope Paul VI diverted it by placing it under the exclusive control of European liberals. An equally close study is devoted to the liturgical "reform" entrusted by the same pope to a group of radicals whose work undermined the spiritual and devotional legacy of the faithful. The loss of orthodox teaching and the disorientation following upon these changes produced a grave crisis in both clergy and laity, but the movement of return to tradition visible today promises a revival of the full Catholic life of the Church. Catholic readers now have a complete and eminently accessible account of the last 50 years of momentous changes in the Church, right up to the pontificates of Benedict XVI and Francis I.
