365 Simple Science Experiments with Everyday Materials E. Richard Churchill, Louis V. Loeschmig, Muriel Mandell

Illustrated by Frances Zweifel This companion to the popular 365 Simple Science Experiments fills a whole new year with fun, easy and educational hands-on experiments. Kids will learn basic scientific concepts, covering everything from nature, physics, time, chemistry and space. The fundamentals of science are brought to life in an informative and colorful text that children ages seven and up can easily follow by themselves. Simple, clear and safe instructions explain the experiments all of which use everyday materials found in most homes. Projects range from mastering helicopter flight with a pencil and piece of cardboard to building bird-nests, preserving spider webs and constructing a "cigar box" guitar (to understand sound waves). More than 700 lively illustrations give visual aids to help set up the experiments.
