The Silent Ecocide: -the Environmental Crisis is a Crisis of Human Consciousness Ms Carlita Shaw
Carlita Shaw's 'The Silent Ecocide' is a brave call that challenges humanity to stand up and take responsibility for our future on Planet Earth. It is a book to make each of us aware that the ecological crisis in the world today is not a simple black & white picture - it is a much broader canvas that involves our relationships to energy, economics, politics, human resources, and ultimately to our very selves. Shaw does not hold back in pointing out our human frailties and failings; yet in the end there is hope, if we can rise to the responsibility of being conscious agents of change. As Shaw says, "Saving the world and humanity is now an inside job." I couldn't agree more. The ecocide on planet Earth can no longer remain in silence. This book is a clear and loud voice on the planet's behalf - and we should listen. Kingsley L. Dennis Ph.D Author and Researcher, www.kingsleydennis.com
