Although the level of harmonisation of European trade mark law is currently more advanced than other areas of IP, the effect of technological development - in particular the implications of the Internet - will have even further impact upon the law, both in the UK and Europe. To help the practitioner keep abreast of these developments, the third edition of this popular and established text has been completely revised and expanded. Including coverage of all the new developments and case law that have occurred since the last edition, the work is full of useful examples and takes a practical approach. \* A practical guide to this fast-moving area of law \* Includes new information on case developments \* Written in an easy-to-understand style
