A Short History of England & The Crimes of England

G .K. Chesterton

A Short History of England & The Crimes of England G .K. Chesterton

A Short History of England & The Crimes of England A Short History of England A Short History of England is exactly that, serving Chesterton's goal of publishing "a popular book of history written from the standpoint of a member of the public." Filled with Chestertonian wit, the fast-moving history includes such gemlike observations as, Henry VIII "was almost as unlucky in his wives as they were in their husband." Of the great late Victorian/Edwardian trio of wits: George Bernard Shaw, Oscar Wilde, and Chesterton himself, it is Chesterton whose body of work -- writing in an unassuming manner, without great pretension -- may well persist for future generations far longer than its charming, genial author ever imagined. The Crimes of England That great Englishman Charles Fox, who was as national as Nelson, went to his death with the firm conviction that England had made Napoleon. He did not mean, of course, that any other Italian gunner would have done just as well; but he did mean that by forcing the French back on their guns, as it were, we had made their chief gunner necessarily their chief citizen. Had the French Republic been left alone, it would probably have followed the example of most other ideal experiments; and praised peace along with progress and equality.
