Digital Watermarking: First International Workshop, IWDW 2002, Seoul, Korea, November 21-22, 2002, Revised Papers (Lecture Notes in Computer Science)

The 1st International Workshop on Digital Watermarking (IWDW), the conference covering all aspects of digital watermarking, was held at the Hotel Riviera situated along the beautiful Han River in Seoul, Korea from November 21 to 22, 2002. These proceedings contain 21 papers that were accepted for presentation at the conference. These papers were selected from 67 submissions including 3 invited papers. They went through a thorough review process by the Program Committee and were selected on the basis of excellence and novelty. The following is a brief description of the history of this conference and reviewing process: In August 2001 some members of the Special Interest Group on Multimedia Protection (SIGMP) of the Korea Institute of Information Security and Cryptology (KIISC) agreed to create the IWDW. In November 2001 we set up a Program Committee and solicited papers while asking Springer-Verlag to publish the proceedings of the workshop in their Lecture Notes in Computer Science series. In July 2002 we received 64 submissions from 14 countries using Microsoft's conference management site (<http://cmt.research.microsoft.com/iwdw2002/>). Each submission was assigned a number automatically by the conference management tool and the paper was sent to the Program Committee members for their review. We also encouraged different sets of experts to join for fair reviews.
